

Hugo Custom Hawgs Fills Affordable Scooter and ATV Need

With over ten years in the motorcycles industry, Hugo Custom Hawgs has introduced a line of entre level ATV's and Scooter's.

Hugo, MN June 19, 2007 -- If you have lived in the northern suburbs for any length of time you are sure to have seen many of the creations to come from Hugo Custom Hawgs. To fill the numerous requests's for affordable scooters and ATV's Hugo Custom Hawgs is excited to announce their new line Wild Fire ATVs and Scooters.

Hugo Custom Hawgs is a custom motorcycles shop specializing in the services and customizing of Harley Davison motorcycles. With over ten years in the industry, Hugo Custom Hawgs has produced motorcycles for Jesse Ventura and KQ-92, just to name a few.

We are very excited to introduce this line of ATV's and Scooters, "said Jerry Eide, founder of Hugo Custom Hawgs. Jerry continued, I always felt this would be a great fit for my business, being we could service what we sell. Almost on a daily basis, I would receive a phone call or have some one stop the shop looking for a used scooter or avt for the kids. The cost for new was just out of reach and hard to justify. Soon I began the search for an imported version and always found that replacement parts would be a problem. This last year I came across the Wild Fire line and discovered to my surprise, Wild Fire inventory's replacement parts in old U.S of.A! So I took on the line and premiered the line at my 3rd annual custom bike show at Hugo Good Neighbor Days. The response was a bit over whelming. I sold what I have in stock and ordered more right after the show.

Hugo Custom Hawgs is an experienced custom shop specializing in custom built motorcycles. They provide service and parts for Harley Davidson motorcycles.
